September 22, 2026

Dear Boat Owners: The hauling season is underway, and you may see a couple of new faces at the boatyard. If you store with us, you may have already seen Derek Jones, Jonathan Lewis, and Bill Downey, who all started working with Ormonde at the boatyard in the Spring. They will be going out on jobs with Ormonde this fall, and are excited about taking on more responsibility and becoming part of the next generation at Pecks. Meanwhile, Amy Hayes decided to look for greener pastures at the end of August, so I'm a bit overwhelmed with office work. This makes it even more important to submit the form below for your fall service work. To avoid the $10.00 admin charge, please be sure to get it to me in a form that is legible with the same physical layout, since I use this form for scheduling and the uniformity helps me tremendously. You can fill it in by hand and drop it off or deliver it. Scans and filled PDF by email generally work and do not need a signature. Photos of the form do not work. …Please try to give me at least three dates you can hold open until the Wednesday the week before your haul, and don't forget to call back if your dates change. I hope you will also start setting time aside to build up some office hours. I will be in touch about that soon!

All best, Laura Opie, Focalizer, Peck's Maritime Collaborative, LLC
